Hose Crimpers - The GC™32-XD Global Hose Crimper from Gates Hydraulics.

A Hose Crimper that Crimps Every Hose and Coupling in the Gates Hydraulic Hose Catalog. Anywhere on Earth.

Works Anywhere

Three-phase inverter makes 220 volts the world over. In Europe, Asia, Africa, the Near East, Australia or anywhere in the Americas, the GC32-XD Hydraulic Hose Crimper can draw power from any grounded 15 - 20-amp circuit producing over 208 volts.

With Any Configuration.

The open hose crimper head accommodates any hydraulic hose construction and any hose coupling configuration. Even 2 1/2" Global MegaVac® return lines.

Faster Than Ever.

Crimps hose twice as fast as its predecessor, the Gates Omni 21 hose crimper.

With Greater Ease and Comfort.

- Puts everything within operator reach
- With a re-positionable control panel
- Optional stand features adjustable height

| Product Features See what the GC32-XD has to offer. | |
|---|---|
| | <ul style="list-style-type: none"> • Make short work of big runs with the optional automatic depth-stop. |

| | |
|---|---|
|  | <ul style="list-style-type: none"> • Color-coded, numbered die sets and an easy-to-read Hose Crimp Chart make finding the right dies a snap! • Clear plastic die tubs, or the optional racks, make it easy to store the dies and keep them clean. |
|  | <ul style="list-style-type: none"> • The gooseneck mirror helps the operator position the coupling in the hydraulic hose crimper head. |
|  | <ul style="list-style-type: none"> • The Quick Change Tool* hold the dies securely and loads them with a twist of the wrist. |
|  | <ul style="list-style-type: none"> • The dial vernier can be set to a retract point, so there's no need to wait for the GC32-XD to open fully between crimps. |
|  | <ul style="list-style-type: none"> • Once the crimping preliminaries are complete, turn it on and unleash it! |
|  | <ul style="list-style-type: none"> • Crimping hydraulic hose can be controlled with the foot pedal or blue crimp button, if released all action stops for safety. • After crimping, the hose crimper retracts to its set position. |
|  | <ul style="list-style-type: none"> • In emergencies, a STOP button shuts down the hose crimping operation instantly. |
|  | <ul style="list-style-type: none"> • All components are "plug 'n' play" and easy to reach. If any part fails it can be replaced in minutes, improving efficiency and productivity. |
|  | <ul style="list-style-type: none"> • Coded diagnostic lights let the operator solve hose crimping issues with just one call to a Gates Product Application Engineer. |
| <p>The GC32-XD Global Hose Crimper Makes Maintenance Easy</p> | |

| | |
|--|---|
|  | <ul style="list-style-type: none"> • A simple lubrication is required every 250 crimps; just a few squeezes of the grease gun. |
|  | <ul style="list-style-type: none"> • The oil filter keeps the hydraulic fluid clean, extending the life of the pump. • Change it whenever the oil is replaced. |
|  | <ul style="list-style-type: none"> • The reservoir sight glass makes it easy to keep the hydraulic oil topped off. |
|  | <ul style="list-style-type: none"> • The oil reservoir's air filter is easy to replace. |
|  | <ul style="list-style-type: none"> • Die-filler sponges keep dirt and debris out of the hose crimper. If they don't rebound from a squeeze, it's time for a replacement. |
